

Tycho Kamphuis

Professional Summary

Driven and adaptable technology professional with eight years of experience across software engineering, customer success, leadership, and product development. I am proactive, technically minded, and focused on delivering the best possible results. I enjoy improving systems and processes while remaining technically involved and creating meaningful value.

Employment History

Software Engineering Manager at Aqqo

Jan 2025

Driving software engineering strategy for a 15-person team, optimizing development processes, driving AI adoption and integration, and keeping delivery focused on reliable product outcomes.

Team lead Customer Success at Aqqo

Dec 2023 - Dec 2024

Built and led a 4-person Customer Success team, establishing the team structure, operating processes, and key customer touchpoints.

IT Consultant at Aqqo

Feb 2023 - Nov 2023

Supported Aqqo's expansion into the government sector by advising public-sector clients, implementing the platform on-site, and driving successful product adoption.

Software Engineer at Aqqo

Jun 2018 - Jan 2023

Laid the technical foundation for Aqqo's platform and designed and implemented integrations with more than 50 third-party applications, enabling a scalable and connected product ecosystem.

Education

Bachelor of Science (BSc), Saxion University of Applied Sciences, Enschede

Sept 2015 - Jun 2019

Bachelor of Science in Technical Computer Science, focused on software development, system programming, embedded systems, electronics, networking, and the integration of hardware and software through practical engineering projects.
